SUBJECT INDEX

Acids: Determination of weak and very weak, in bitumen and similar materials, 32-39
Additives: Ashless polymeric, detergency dispersal characteristics 290-298

Asphalt:
- Bead tests on rubberized asphalt, 173-177
- Creep of asphalt mixes, 247-262
- Study of asphalt-aggregate interactions and asphalt-molecular interactions by microcalorimetric methods, 279-289

Bituminous binders of improved quality containing "Cariflex" thermoplastic rubbers, 91-97
Boundary lubricity studies:
- Structure-activity correlations in alkylpyridines, 27-31

Codes of Practice:
- See metal working fluids.

Concrete, plasticized bituminous, mechanical properties, 231-238

Drilling:
- Structural computer analysis on directional drilling assemblies, 122, 132

Emulsions:
- Water-in-Oil emulsion formation subsequent to an oil spill, 164-172
- System for producing and transporting crude oil as oil/water emulsion, 273-278

Fluorine, determination of content in crude oils, 42

Fuel Oil:
- Determination of vanadium and sodium, 84-90
- Weathering under natural conditions, 223-230

Gas chromatography, for measurement of gasoline volatibility inspection properties, 146-153
Gasoline, unleaded, effect on exhaust emission and lubricant performance, 154-163
Hydrocracking of polynuclear aromatic hydrocarbons over silica-alumina based dual functional catalysts, 179-187
Hydrodenitrogenation of petrol-model-nitrogen compounds, 188-194
Hydrogen sulfide, effect on hydrodenitrogenation of pyridine, 40-41
Hydrometers, methods of calibrating for use in LPG, 268-272
Institute of Petroleum, Sixtieth Annual General Meeting 195-200

Jet Fuels:
- A new method for estimation of freezing point based on n-paraffin content, 20-26

Kuwait asphaltenes, molecular weight distributions as determined by ultracentrifugation, 211-222
Lead:
- Isotopic ratio as means of detecting sources of emissions 59-65
- Solid internal method for X-ray fluorescence spectroscopy for analysis of lead in gasoline, 66-69

Library, additions to, 245-246
Lubricating oils, improved foam test for, 106-113
(see also Gasoline, Motor Oils, Steam Turbine Oils)
Metal Working Fluids, Codes of Practice:
- Health problems arising from contact and exposure of workers, 1-8
- Oil Suppliers' Views 9-14
- Role of Codes of practice 18-19
- Users' Views 15-17

Motor Oils, high temperature thickening, 201-210
Obituaries:
- T. Dewhurst, 144
- N. A. Iliff 43-44
- G. Tugendhat 144-145

Oil-in-Water determination, interference of nonhydrocarbons, 263-267
Petroleum accumulation, 139-141
Rheological limits of mineral and synthetic hydrocarbon base stocks, 70-83
Sodium, determination of, in fuel oil, 84-90
Steam-turbine oils, service performance, 45-58
Sulphonates, molecular structure and its influence on dispersant properties of motor oils, 244
Sulphur:
- Compounds in Darius Crude, 133-138
- Microcoulometric determination at sub-ppm levels, 142-143

Surface properties, role in evaluation of test mixtures in distillation, 114-121
Tanks, oil burning rates in partly vented, application to disposal of wrecked oil tanker cargoes 98-105
Transformers, faulty, formation of gaseous hydrocarbons in, 239-241
Vanadium and Sodium, determination in fuel-oil, 84-90
Weathering of heavy residual oil under natural conditions, 223-230
Wood dust, use in removal of oil from water surfaces, 242-243
